FOR IMMEDIATE RELEASE

July 9, 2018

**BALLISTIC AND IMPACT RESISTANT LAMINATE COMES TO BUFFALO
A.C.E. ENHANCED SECURITY GLASS LAMINATE PROTECTS AGAINST ACTIVE SHOOTER****Buffalo, N.Y., July 10, 2018 –**

A.C.E. Ballistic Laminate is unlike any other product on the market today. Rather than replacing an entire structure and frame for a window or door, A.C.E. ballistic laminate adheres to existing surfaces. Cutting cost in half while attaining the highest level of security for active shooter prevention, and improvised explosive devices, A.C.E. ballistic laminate is the future of security.

In addition to the huge cost savings benefit, A.C.E. ballistic laminate will also reduce your insurance premiums!

Designed from the toughest, most advanced bulletproof and impact resistant material on the market today, A.C.E. ballistic laminate ensures your business, place of worship, or home will be protected. Reinforcing your glass windows and doors against bats, riots, firearms and explosive devices, A.C.E. is the industry leader in security laminates around the globe.
